Key Resources

The links below provide quick access to online resources that can serve to provide a starting point for your research, however please note that these collections are limited in scope. To search for all books available on your topic, please search the Norris Library catalog for health sciences resources or the UPC catalog for a broader search of holdings in all USC libraries.

- **LWY Health Library - Occupational Therapy**
  Videos, Self Assessments, Cases and online access to core occupational therapy textbooks.

- **AccessMedicine**
  AccessMedicine includes nearly 800 ebooks, 4 databases, self-assessment modules, USMLE Easy Diagnosaurus (diagnostic tool covering over 18,000 downloadable images, videos, and audio).

- **AccessPhysiotherapy**
  This resource integrates textbooks, procedure and exercise videos, and a cadaver dissection tool.

- **R2 Digital Library**
  This book collection contains many items on Occupational Therapy.

- **Thieme Electronic Book Library : TEBL**
  Link to books on anatomy and neurology in the Thieme ebook Collection.

- **Books@Ovid**
  eBook collection with access to over 800 major medical and allied health texts and handbooks.

- **Ebrary**
  Large multi-disciplinary collection of full-text online books.
The following databases have been selected due to their inclusion of occupational therapy topics, or other relevant material. Please note that many other databases are also available to assist you in your search:

- PubMed@USC
  Customized for USC users to find the full-text of articles from library holdings.

- PubMed Clinical Queries
  Limited to clinical studies, systematic reviews, and medical genetics. For comprehensive searches, use PubMed directly.

- CINAHL Complete
  CINAHL with Full Text is a rich collection of full text for nursing & allied health journals.

- Cochrane Database of Systematic Reviews
  The Cochrane Database of Systematic Reviews provides access to full-text systematic reviews.

- Joanna Briggs Institute EBP Database
  Evidence-based practice database with a global focus. Find systematic reviews, protocols, recommended practices, evidence summaries, best practice and consumer information sheets, and technical Reports.

- ProQuest Nursing and Allied Health
  This database includes journals, video, dissertations, reference books and more.

- Social Sciences (ProQuest)
  Searches a number of ProQuest social science databases (including ERIC, GenderWatch, PsycInfo, and Sociological Abstracts).

- AnthroSource
  Provides full text access to publications from the American Anthropological Association. Some coverage on medical anthropology and ethnoarchaeology. Good for sociocultural and linguistic anthropology.

- AGELINE
  Content focus on social gerontology, which is the study of aging in psychological, health-related, social, and economic contexts. Includes abstracts of over 200 academic journals, books, book chapters, and dissertations from 1978 to present.

- Embase
  Embase provides access to over more than 29 million citations for biomedical articles and conference proceedings. This version has been customized for USC users to find the full-text of articles from library holdings.
